ABOUT HSPA

The purpose of the Healthcare Sterile Processing Association (HSPA) is to provide Sterile Processing (SP) professionals with educational opportunities, professional development, and certification.

Because SP professionals are responsible for cleaning, decontaminating, sterilizing, and distributing medical and surgical instrumentation, they are among the most vital contributors to the delivery of safe, high-quality patient care. For more than 60 years, HSPA has been providing these professionals with the broadest range of certification and continuing education offerings available, along with the unsurpassed support that only a full-service membership organization can bring.

This commitment to advancing SP knowledge, skill sets and professionalism is why over 50,000 members and certification holders rely on HSPA to keep them sharp, focused and abreast of the very latest standards, best practices and technological advancements impacting the SP profession.
