

GREAT IAHCSMM EXPECTATIONS

ANNUAL CONFERENCE AND EXPO

Together Toward a Stronger Sterile Processing Future

OCTOBER 9 - 11  OCTOBER 12 - 14, 2021

Why You Should Attend

01

Educational Opportunities

No matter how experienced you are in the Sterile Processing field, everyone can learn. Without exposure to a variety of points of view, we can miss new ideas and trends that can impact future results for our patients. The conference offers over 16 credit hours of education to improve your technical skills and better manage your department.

02

Networking with Peers

The conference provides a great opportunity to network—and collaboration is a great way to approach networking. We can all work together to uncover ideas and spark inspiration. Interact with your peers to hear best practices and tips from other Sterile Processing professionals with similar challenges in the field.

03

Encounter New Vendors and Suppliers

Discovering new products and services for your healthcare facility is necessary for the success of your department and the delivery of quality patient care. And the time has finally arrived to regroup, reconnect and refresh with participating Sterile Processing suppliers at the only Expo dedicated entirely to your profession.

04

Position Yourself as an Expert

When you are active and engaged in the conference, you bring a sense of enthusiasm and in-depth knowledge to your teams back home. Through 30-minute and 60-minute educational sessions, or networking with peers, speakers and suppliers, attendees can return to their departments with greater confidence as a Sterile Processing professional.

05

Have Fun!

Being in Sterile Processing should be rewarding. Never underestimate the power of a little fun mixed in with some interesting people who share a very significant common interest—helping others! Engage during social events, tour the host city of Columbus and make friends that may last a lifetime.
